Paper wreath templates

Print at 100% / Actual size. Print the half-ring on page 2 twice. These templates fit A4 and US Letter paper.

1 Measure this line: it must be exactly 5 cm.

2 Cut out both half-rings. Align their straight ends to trace one complete ring on sturdy card. The outside is 20 cm across; the opening is 14 cm.

3 Cut and fold the leaves from the last page. Start with 24 and dry-fit them around the ring. Overlap each new leaf over the previous base; glue only near the bases so the tips stay raised.

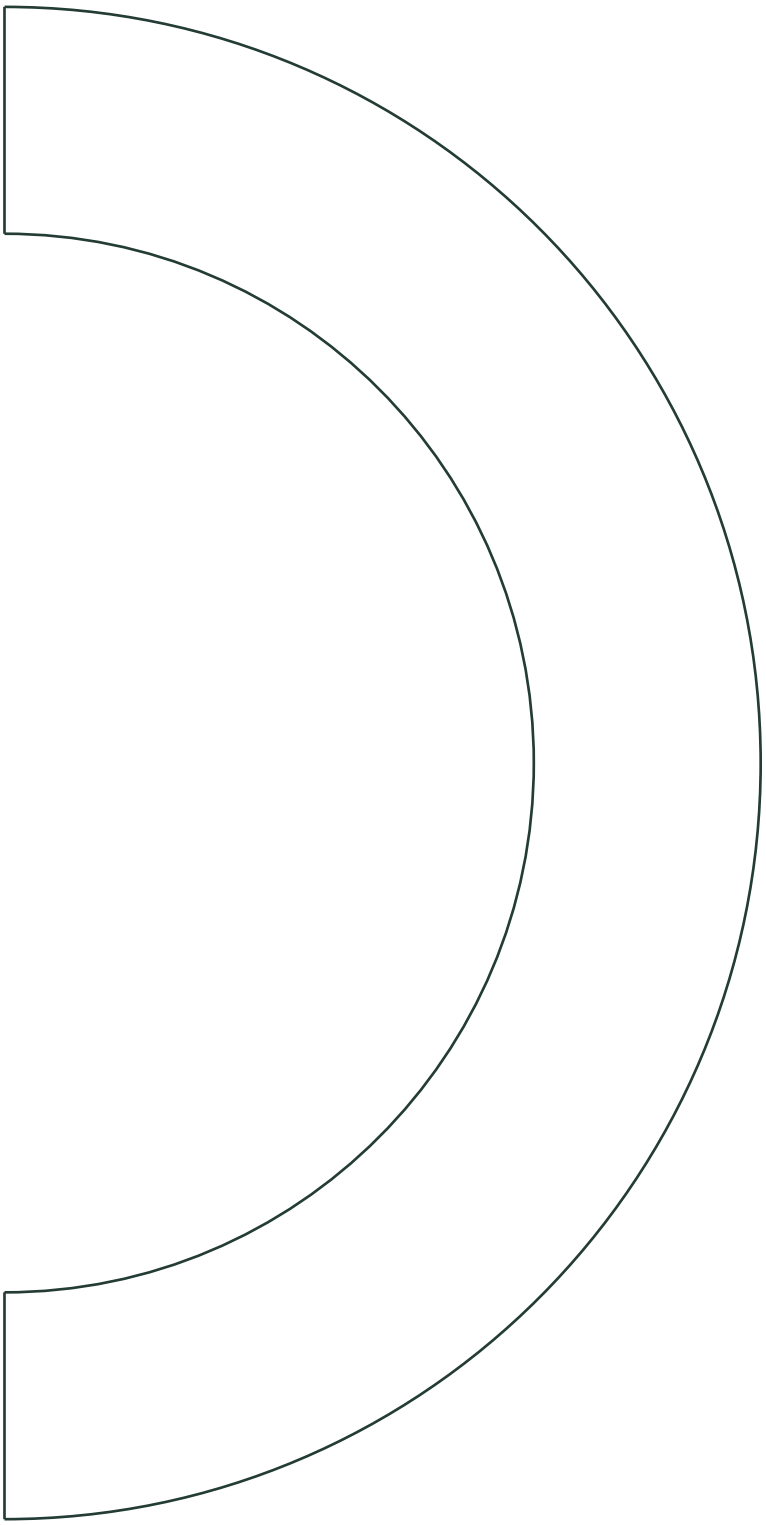

4 At the join, gently lift the first leaf and tuck the last base beneath it. Add a light bow, let everything dry, then attach the hanging loop to the back.

Print guide

Page 1: instructions and a 5 cm scale check.
Page 2: half-ring; print TWO copies at actual size.
Page 3: leaves and bow strips; print one copy as tracing templates.

Half-ring template

Actual size: 20 cm outer diameter; 14 cm inner opening. Join the two halves at their straight ends.

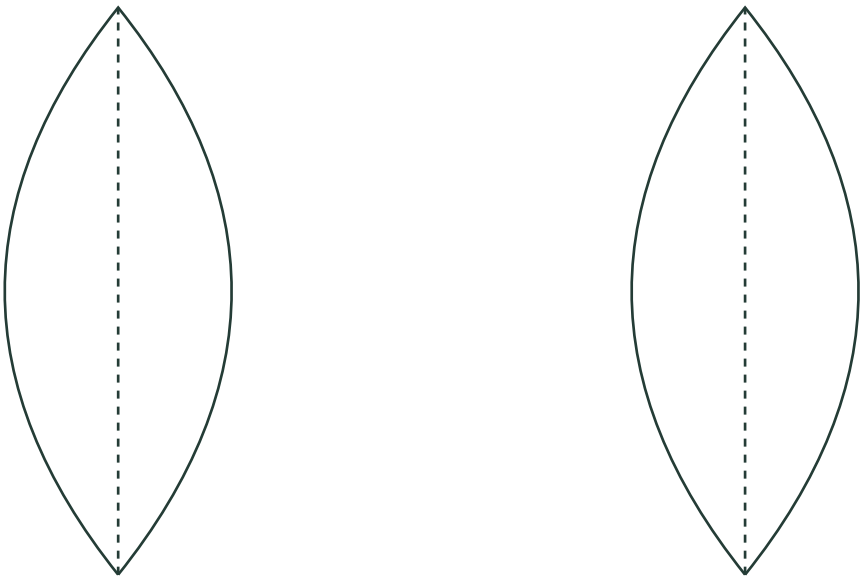

Match the straight ends to the second half. Trace the complete ring on sturdy card.

Leaves and paper bow

Print at 100% / Actual size. Cut solid outlines; fold dotted lines. An adult prepares the card ring.

Leaf: 7.5 cm long and 3 cm at its widest. Trace about 24 and test the arrangement before gluing.

Bow pieces

Two loops: 10 x 2 cm each. Two tails: 6 x 2 cm each. Cut a center band 1 cm wide and trim its length after wrapping.

LOOP — cut 2

TAIL — cut 2
